

THE DOCTOR IS IN

Wherever you go in Missouri, an MU medical graduate, clinic, training site or continuing education program is nearby.

WHERE OUR GRADUATES LIVE OR PRACTICE

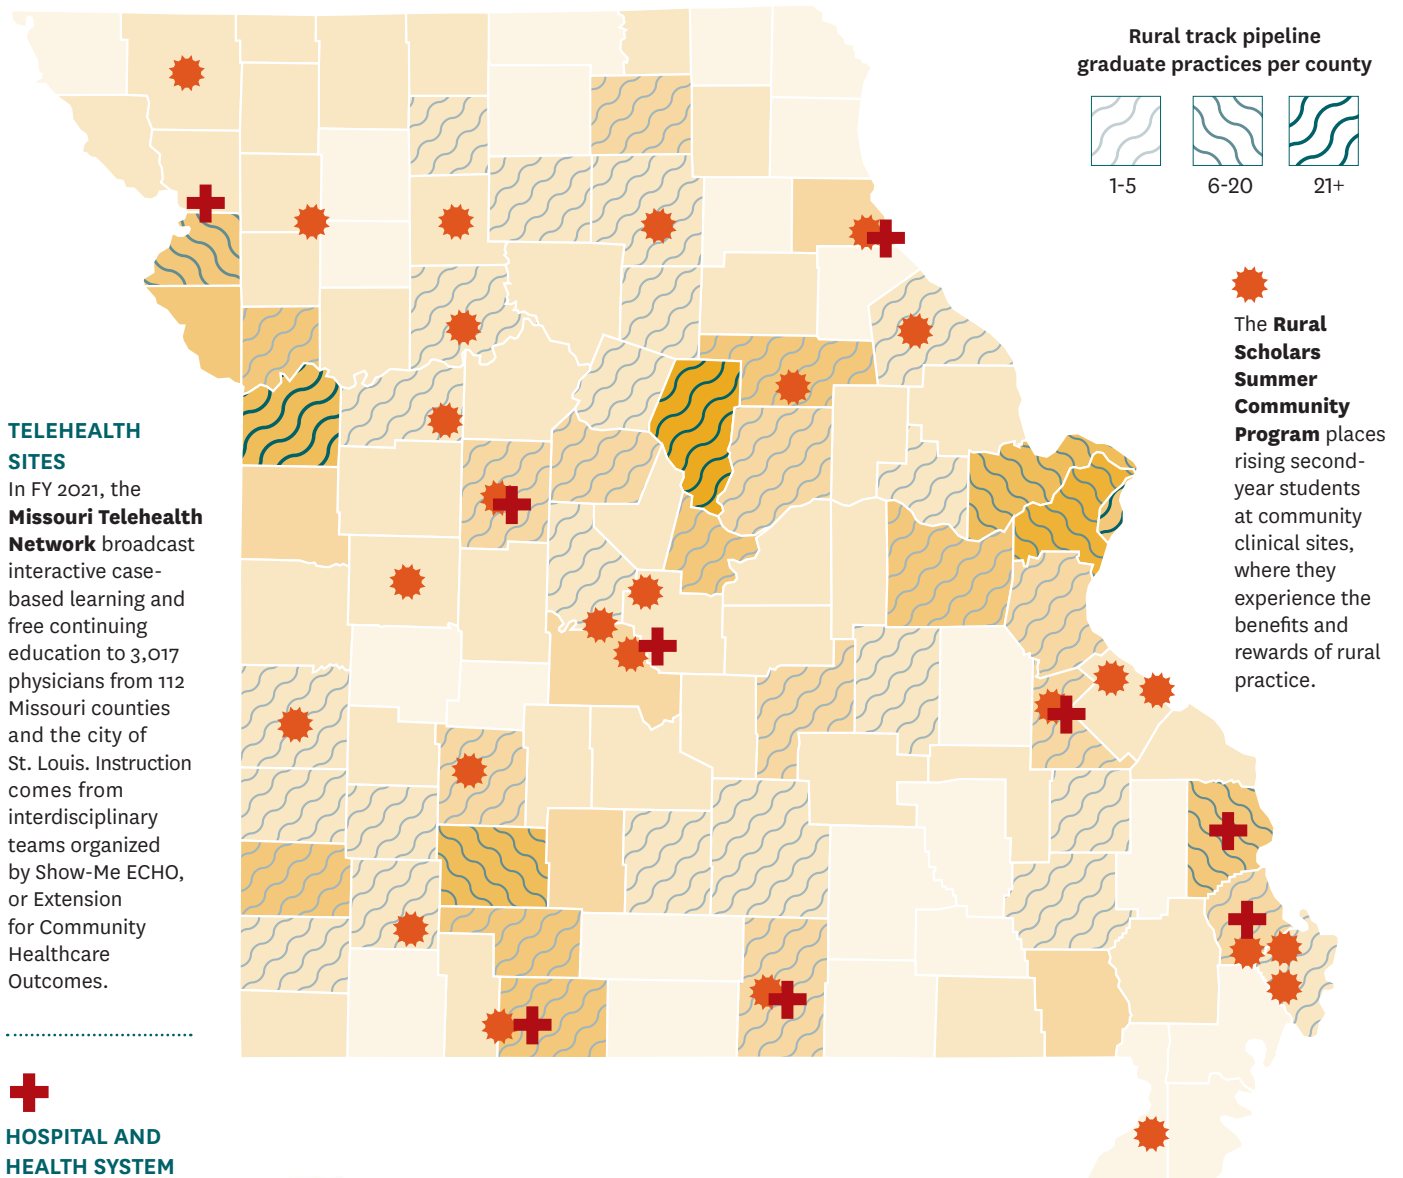

More Show-Me State physicians earned their medical degree at MU than at **any other university**.

RURAL TRACK PIPELINE

The **Rural Track Pipeline** is a suite of programs seeking to ease the shortage of rural providers. About 55% of rural pipeline graduates practice in a rural location, and 80% stay in Missouri.

The pipeline program's **Rural Scholars Program** offers interested students lectures, mentoring and clinical programs centering on rural care. Students train at sites statewide to learn local culture, health disparities and health care resources.

TELEHEALTH SITES

In FY 2021, the **Missouri Telehealth Network** broadcast interactive case-based learning and free continuing education to 3,017 physicians from 112 Missouri counties and the city of St. Louis. Instruction comes from interdisciplinary teams organized by Show-Me ECHO, or Extension for Community Healthcare Outcomes.

HOSPITAL AND HEALTH SYSTEM COLLABORATORS

Partners statewide provide preceptors who help educate medical students and offer direct clinical care experiences.
