MIZZOU 2021 AUTHORS

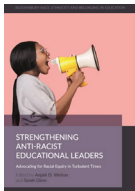

The T. S. Eliot Studies Annual: Volume 3 by **Frances Dickey**, associate professor of English (Clemson University Press, September 2021)

The T. S. Eliot Studies Annual is the leading venue for the critical reassessment of Eliot's life and work in light of the ongoing publication of his letters, critical volumes of his complete prose, the new edition of his complete poems, and the forthcoming critical edition of his plays.

Anti-Racist Educational Leadership and Policy: Addressing Racism in Public Education by **Sarah Deim**, department chair, Educational Leadership and Policy Analysis (Routledge; 1st edition, July 2020)

Anti-Racist Educational Leadership and Policy helps educational leaders better comprehend the racial implications and challenges of the current educational policy landscape.

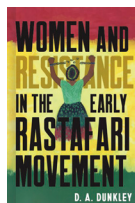

Strengthening Anti-racist Educational Leaders by **Sarah Diem**, department chair, Educational Leadership and Policy Analysis (Bloomsbury Academic, November 2021)

This edited volume expands on the existent research on anti-racist educational leadership by identifying what type of capacity building is needed for school administrators to facilitate anti-racist change in their schools.

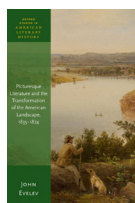

The Black Man in Brazilian Soccer translated by **Jack A. Draper, III**, associate professor of Portuguese (The University of North Carolina Press, April 2021)

At turns lyrical, ironic, and sympathetic, Mario Filho's chronicle of the beautiful game is a classic of Brazilian sports writing. Now in English for the first time, the book highlights national debates about the inclusion of African-descended people in the body politic and situates early black footballers as key creators of Brazilian culture.

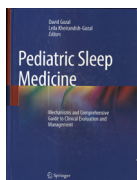

Women and Resistance in the Early Rastafari Movement by **Daive A. Dunkley**, associate professor, Department of Black Studies (LSU Press, October 2021)

Women and Resistance in the Early Rastafari Movement is a pioneering study of women's resistance in the emergent Rastafari movement in colonial Jamaica.

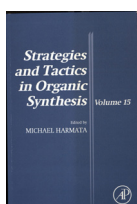

Picturesque Literature and the Transformation of the American Landscape, 1835-1874 by **John Evelev**, professor of English (Oxford University Press, July 2021)

This book recovers the central role that the picturesque, a popular mode of scenery appreciation that advocated for an improved and manipulated natural landscape, played in the social, spatial, and literary history of mid-nineteenth century America.

Pediatric Sleep Medicine: Mechanisms and Comprehensive Guide to Clinical Evaluation and Management by **David Gozal**, Department of Child Health chair, and **Leila Kheirandish-Gozal**, director of Child Health Research Institute (Springer; 1st edition, April 2021)

This book provides comprehensive coverage of all aspects related to pediatric sleep and its associated disorders.

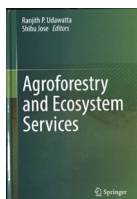

Strategies and Tactics in Organic Synthesis by **Michael Harmata**, Rabjohn Distinguished Professor of Chemistry (Elsevier, November 2021)

Strategies and Tactics in Organic Synthesis, Volume 15, provides a forum for investigators to discuss their approach to the science and art of organic synthesis.

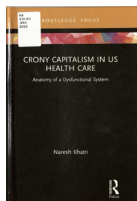

Handbook on the Human Impact of Agriculture by **Harvey S. James, Jr.**, professor of Agricultural and Applied Economics (Edward Elgar Publishing, June 2021)

This timely *Handbook* synthesizes and analyzes key issues and concerns relating to the impact of agriculture on both farmers and non-farmers.

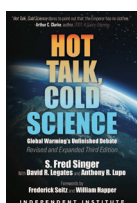

Agroforestry and Ecosystem Services by **Shibu Jose**, associate dean for research, and **Ranjith Udawatta**, research professor (Springer; 1st edition, October 2021)

This book is a state-of-the-art compilation of the latest information on ecosystem services of agroforestry.

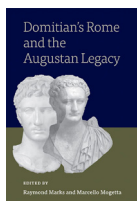

Crony Capitalism in US Health Care: Anatomy of a Dysfunctional System by **Naresh Khatri**, associate professor in the Department of Health Management and Informatics, School of Medicine (Routledge; 1st edition, July 2021)

This book employs a broad theoretical framework of crony capitalism to understand US health care system dysfunction.

Hot Talk, Cold Science: Global Warming's Unfinished Debate by **Anthony R. Lupo**, professor of Atmospheric Science (Independent Institute; Third edition, February 2021)

The revised and expanded third edition of *Hot Talk, Cold Science* forms the capstone of the distinguished astrophysicist Dr. S. Fred Singer's lucid, yet hard scientific look at climate change.

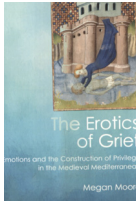

Domitian's Rome and the Augustan Legacy by **Raymond Marks**, associate professor, Department of Ancient Mediterranean Studies, and **Marcello Mogetta**, assistant professor, Department of Ancient Mediterranean Studies (University of Michigan Press, September 2021)

This volume represents the first book-length treatment of the reception of Augustus and his age during the reign of Domitian.

The Origins of Concrete Construction in Roman Architecture by **Marcello Mogetta**, assistant professor, Department of Ancient Mediterranean Studies (Cambridge University Press, June 2021)

In this study, Marcello Mogetta examines the origins and early dissemination of concrete technology in Roman Republican architecture.

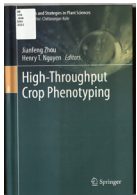

The Erotics of Grief: Emotions and the Construction of Privilege in the Medieval Mediterranean by **Megan Moore**, interim chair of the School of Languages, Literatures, and Cultures (Cornell University Press, September 2021)

The *Erotics of Grief* considers how emotions propagate power by exploring whose lives are grieved and what kinds of grief are valuable within and eroticized by medieval narratives.

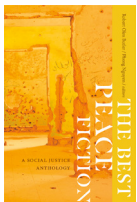

Strange Encounters: Short Stories by **Speer Morgan**, professor of English (Missouri Review Books, March 2021)

Fiction. The odd, illuminating moment that arises from a strange encounter is a trope in short fiction that seldom gets shopworn. Unlikely collisions both in terms of plot and character give energy and illumination to the fifteen stories collected in *Strange Encounter: Short Stories*.

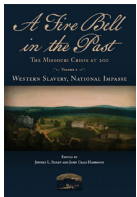

High-throughput Crop Phenotyping by **Henry T. Nguyen**, professor, Plant Science and Technology, and **Jianfeng Zhou**, assistant professor, Plant Science and Technology (Springer; 1st edition, July 2021)

This book provides an overview of the innovations in crop phenotyping using emerging technologies, i.e., high-throughput crop phenotyping technology, including its concept, importance, breakthrough and applications in different crops and environments.

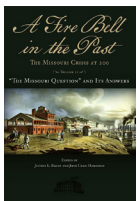

The Best Peace Fiction: A Social Justice Anthology by **Phong Nguyen**, professor and Miller Family Endowed Chair of Writing (University of New Mexico Press, September 2021)

In the first anthology of its kind, Robert Olen Butler and Phong Nguyen assemble an astounding collection of stories that cause readers to contemplate war, peace, and social justice in a new light. The fourteen stories featured in this volume explore the varied and often unexpected outcomes of violence.
